# Edward D. Atencio M.

I aspire to be a great video game developer, so I work hard (almost) every day using the resources that I have within my reach.

I'm interested in developing all kinds/genres of videogames and even non-game applications; and use all types of technology, from VR/AR to Arduino based custom hardware.

---

## EXPERIENCE

### LEAD PROGRAMMER

Aug 2019 - Present  
Super Video Mania, C.A.  
Zulia, Venezuela

Manage a small team of two junior game programmers, an Arduino programmer, and a 3D modeler, supervising their projects, keeping their progress on schedule, giving feedback, and helping out when they get stuck. And also, develop my assigned projects.

### UNITY DEVELOPER

Jul 2018 – Aug 2019  
Super Video Mania, C.A.  
Zulia, Venezuela

Develop video games to be placed in the arcade rooms all around the country, using the Unity game engine and the C# programming language.

### IT ANALYST

Jun 2017 – Aug 2017  
Cervecería Polar C.A.  
Zulia, Venezuela

Two-month contract done in the IT department, carrying out the support activities in different locations according to the established standards and guidelines.

### ACADEMIC INTERNSHIPS

Feb 2017 – Mar 2017  
Cervecería Polar C.A.  
Zulia, Venezuela

Two months of academic internships done in the IT department, carrying out the support activities in "Planta Modelo" according to the established standards and guidelines.

---

## EDUCATION

### COMPUTER SCIENCE BACHELOR'S DEGREE
